

Notice of Critical Repairs

CLIENT INFORMATION

Client Name

Home Street Address

City, State, Zip

Assessment Date

Based on information obtained during the energy assessment, safety hazards have been identified.

Work may proceed without hazards being mitigated.

List hazards by name and location. (For example: asbestos on ductwork in basement, or open electrical splice or wires at water heater, etc.)

Hazard 1

Hazard 2

Hazard 3

Hazard 4

Hazard 5

The project will have to be deferred until needed repairs are completed. Once repairs are completed, the project can proceed. Deferral Notice is attached.

It is the client's responsibility to repair the following health & safety hazards and then notify the contractor the repair(s) have been completed, and work may proceed.

Hazard 1

Hazard 2

Hazard 3

Hazard 4

Hazard 5

Based on the initial review of the property, the contractor has identified the above potential health or safety problems. This is a limited inspection. These are the existing conditions as of the date below.

By signing below, I acknowledge that I, the client named above, have been informed of the conditions and may have to address some of the items prior to any retrofit work.
